Thiess Services Secure 5 Year Contract with Ergon Energy

Queensland's Electricity provider, Ergon Energy, has selected Thiess Services to provide network construction and maintenance services to its growing Central and Northern regions, under a five-year agreement valued at up to \$100 million.

This recent contract win extends the long standing relationship between Ergon Energy and Thiess Services.

David Saxelby, Thiess' Managing Director, said that Ergon Energy was a key strategic client and the company was excited about the opportunity to expand its service offering to these growth regions.

"I am delighted we have the opportunity to build on our solid, six year relationship with Ergon Energy and are keen to work more closely with them to deliver their vision of providing increased services to these regional communities" he said.

Thiess Services, has a national electricity distribution capability and is leading the way in areas of safety, technical training, project management and resource flexibility.

The company is ready for the new challenge, according to Thiess Services Executive General Manager, Michael Wright.

"This contract will enable us to expand our presence in regional Queensland, and extend our current service offering. We will continue to provide the high standards of safety and service delivery that we have been able to achieve and sustain,"

"Overall, we're excited about this opportunity with Ergon Energy to help make a difference for regional people and their communities in Queensland, during this period of regional growth and development."
